

AT HOME ACTIVITY: SHADOW PUPPETS

Inspired by Lit, follow the instructions to create your own puppets.

1. Print this document onto heavy paper or print and trace the shapes below onto a heavier paper (such as poster board or card stock).
2. With an adult's help, carefully cut out each shape.
3. Attach a skewer (or something similar) to each shape.
4. Use a flashlight to cast a shadow of the puppet. A single, bright bulb works best.
5. Get creative! What stories can you tell using these puppets? You could even try drawing and creating a new puppet entirely of your own!
